I'm Interested In:

- Backbonejs
- Angularjs
- Nodejs

My Tools:

- Sublime Text
- Git and Github
- Gulp
- Chrome DevTools

I'm Reading:

- Eloquent JavaScript
- If Hemingway Wrote JavaScript

Whats Up Anna?

I'm a Front-End Developer who is interested in helping people create sleek and interactive web experiences. Thanks to HackerYou and my knowledge of the most up-to-date web techniques and tools, I can make that happen.

Above all, I have a desire to continue learning and to work collaboratively within a fast paced team. Additionally, my background in English literature has helped me to become efficient in reading and retaining large amounts of information in a short period of time.

EXPERIENCE

Communications Director, Hutcheson Sand and Mixes (May 2013 -Dec 2014)

Created the company's digital presence. Worked with a web developer to maintain online content. Developed and executed marketing campaigns for current products and new products using both digital and print media (both locally and nationally). Facilitated with local in-house sales.

FEATURED PROJECTS

Find Out What's Happening When You Visit New York!

An app that tells a user what events are going on in New York City based on user inputs such as time of visit, the borough and a user's preferred interest.

Check it out here: whatsupanna.com/nytimes/

The Perfect WordPress Template for an Engagement!

A wordPress template built with Hannah Wong that is fully responsive and customizable thanks to wordPress. It uses custom fields and jQuery for really tasteful animations and effects.

Check it out here: whatsupanna.com/perfectcouple/

jQuery Plugin !

A jQuery plugin that allows a user to effortlessly create a signup modal box. The inputs in this box also shift from span to input and back to span. This plugin seeks to streamline the user into signing up for a newsletter on a website.
